

dear sir/madam:we live in a semirural area and our radio station quality is rather poor and the quality of its content leaves a lot to desire of; since i acquired my new car with the ability to receive the XM radio quality of broadcasting, it has been a miracle come true for us.

i strongly urge you to reject NAB's petition 04-160.

we feel XM radio system is the best we have had in our area in the last 25 years of our presence here in south texas.

sincerely,

felix f. regueira, md
